

“Experts in the design, manufacture and use of spray applied pipeline rehabilitation equipment.”

Schur Ltd provides a complete design and manufacture service to many utility pipeline rehabilitation contractors in the UK and worldwide.

With a culmination of over 28 years experience, Schur Ltd are experts in the design, manufacture and use of spray applied pipeline rehabilitation equipment.

The rigs that Schur manufacture are widely regarded as the best on the market, this coupled with the W.E.R.M.S flow monitoring system and many innovative and unique designs incorporated into the rig, make it a leader in Rig Design

Our work ethic dictates that we continually ask “how can we make things better” and this is our true philosophy. All fabrication, pipework and electrics are carried out at our own workshops, allowing us to have complete control over systems and quality and we offer full technical backup, on site servicing and operator training if required.

Schur personnel have been involved in the design and manufacture of over 80 lining rigs for both the UK and Overseas markets.

#### Our customer base includes;

UK, USA, Russia, Malaysia, Australia, Korea, China, Brazil, Slovakia, Czech Republic, Canada,

#### Equipment and Service Summary

- PU & Epoxy pipe lining rigs with many unique features.
- Rackfeed pipe cleaning machines (CE approved) and all accessories
- Pipe Lining machines (centrifugal) up to 1500mm
- Pipe Lining rig monitoring system (W.E.R.M.S, DWI approved) complete with full remote data upload facility (full fitting, calibration and training service) worldwide
- Large heated portable PU / Resin tanks (1500 litre)
- Foam pigs standard & specials including pull through type
- Pipe Scrapers and Pipe Plungers
- Chlorination units (unique design, spray applied)
- 10,000kg tractor mounted winches
- 2,500kg trailer mounted winches, with auto spooling.
- Graco pump equipment serviced & supplied
- Design service (C.A.D drawings up to A1)
- Equipment service and calibration (worldwide)
- Worldwide training, back up and consultation
